UCLA Health

The UCLA Center for World Health, the American-Chinese CEO Society, and the UCLA Asia Pacific Center cordially invite you to a networking reception

A NEW ERA OF INTEGRATIVE HEALTH: THE CUTTING EDGE OF EAST-WEST MEDICINE

Thursday, May 24, 2018 | 6 pm - 8 pm
Fowler Museum at UCLA
308 Charles E. Young Drive North
Los Angeles, CA 90024

Reconciling overall well-being with our modern, frequently stressful lifestyle poses considerable challenges for each of us. Innovative approaches to integrative medicine are being developed that can support us in achieving balance and optimal health. These approaches incorporate the best practices of both Eastern and Western medicine, combining conventional medicine with a number of proven, effective complementary and alternative therapies.

Please join us on Thursday, May 24th to network and to hear Dr. Ka-Kit Hui, Founder and Director of the UCLA Center for East-West Medicine, one of the first integrative medicine centers in the United States.

UCLA Leadership will also share exciting developments on several high-impact clinical, education, and research initiatives planned and underway in China.
